Clarity Infusion®

HOW THE INFUSION WORKS

An Intraceuticals Clarity Infusion® harnesses three elements to achieve instant and dramatic results:

- A. Oxygen under light pressure aids delivery of age defying actives to the deeper layers of the skin at the same time as cooling and calming the skin.
- B. Unique Clarity Serum contains lightweight Hyaluronic Acid and a powerful combination of vitamins and antioxidants. The Hyaluronic Acid helps to instantly hydrate the skin resulting in increased firmness, reduced fine lines and improved facial contours. Phytosphingosine and anti bacterial actives soothe, calm and balance to dramatically refine the skin.
- C. Treatment Support Products provide essential layers to seal in and supplement skin nutrients for maximum synergistic effect and longer lasting results.

HYALURONIC LAYERING

Hyaluronic Acid is an ingredient found naturally in the skin. The lightweight version of Hyaluronic Acid in the Clarity Serum is absorbed quickly by the skin for maximum dispersion of nutrients. Follow with Clarity Treatment Gel with multi-weight Hyaluronic Acid that offers a reservoir of nutrients for the lower levels of the skin. The ultimate in intense hydration is now achieved and we call this Hyaluronic Layering.

Step 1 - CLARITY INFUSION

This is the first step in your skin's transformation. Cooling, calming, pressurised oxygen increases absorption of the Clarity serum and naturally improves your skin's moisture levels while Vitamins and antioxidants protect and defend. A combination of lightweight Hyaluronic Acid, Vitamins and antibacterial antioxidants result instantly in calmer, clarified skin with reduced blemishes and irritation. Your skin will emerge hydrated, calm, balanced and glowing with health and vitality. Results are not only instant but continue to improve in the following days.

Step 2 - CLARITY TREATMENT GEL

Intensify and maintain your results with Treatment Support Products. Clarity Treatment Gel with multi-weight Hyaluronic Acid provides the next hydration layer to seal in moisture and create an invisible barrier against moisture loss. Apply twice daily. This Hyaluronic Layering process offers unmatched hydration and long lasting results. Continued use of Treatment Support Products is an essential stage in prolonging the benefits. Apply twice daily and prepare to be impressed.
