Rejuvenation Infusion

Does your skin feel tight, tired and dry? Does it look dehydrated, lackluster and dull?

An O2 Intraceuticals Rejuvenation Infusion is a unique experience providing instant results you can see and feel.

In just one treatment your skin will look and feel years younger, skin will feel nourished and hydrated, cell renewal and skin regeneration are stimulated.

Fine lines and blemishes virtually disappear, your skin feels rejuvenated, radiant, moisturized and fresh.

An Intraceuticals facial is gentle, relaxing and soothing and is suitable for all skin types. It is the perfect partner for many other therapies and may enhance benefits of other therapies such as micro-dermabrasion or a peel. The appearance of many common skin ailments such as acne, rosacea, stretch-marks and scarring may be visibly improved.

Why it works

The Intraceuticals Rejuvenation Serum has a base of hyaluronic acid – an ingredient found naturally in the skin and renowned for its superior benefits as an ingredient carrier. Vitamins A, C, and E and Green Tea are powerful antioxidants that help fight free radicals.

Combined with topical hyperbaric oxygen technology the Rejuvenation Serum stimulates regeneration of new cells, elastin and collagen production supplements and plumps the skin surface to visibly reduce the appearance of fine lines and wrinkles.
